Single Sided VS Double Sided

ALL flags are available in both single & double sided

FRONT

BACK

SINGLE SIDED

Artwork is printed on one side of the flag. Due to the lightweight fabric, the graphic is visible from the reverse side with approximately 95% show-through, appearing as a mirror image.

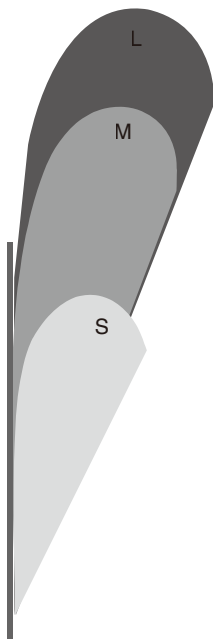

FRONT BACK

DOUBLE SIDED

Artwork is printed on both sides with a blackout fabric layer sewn between the graphics to eliminate light show through. Choose the same design on both sides or different artwork on each side for maximum branding flexibility.
